

# Rex-Royal S 200

## Rex-Royal S200 MCT

Where there's coffee, fresh milk must not be lacking. With the „M“ version of the Rex-Royal S200, we've developed a solution that allows coffee and fresh milk to be purchased simultaneously for the various coffee/milk specialities. The Rex-Royal S200 MCT has been designed, above all, for self-service gastronomy. The advanced Rex-Royal milk system guarantees delicate foam of the highest standard. You can choose from a wide range of fridges as add-on units.

### Features

Fresh Milk

Coffee

Hot Water

### Advantages

- A proven self-priming milk system or optional integratable milk-pumping system for individual adjustment of the milk temperature; additional options such as cold milk foam or the dispensing of milk from an under-the-counter solution.
- High-quality, solid brewing unit for up to 15.5 grams of milled coffee per brewing operation.
- „Double-Shot“ function for that „Extra-Shot“ espresso.
- „PerfectBrew“ for an optimal extraction of coffee for individual as well as double dispensing.
- Mains water connection or fresh water tank (3.6 litres) with integrated filter cartridge; drip tray optional with fresh water tank.
- High-resolution capacitive, 7“ colour TouchScreen for the programming of up to 24 beverages.
- Easy operation and care thanks to visual user prompts and automated cleaning.
- Modular construction of the coffee machine for short intervention and maintenance downtimes.
