

Rex-Royal S 300 MCSTI

Rex-Royal S300 MCSTI

The „all-in-one“ solution. Discover the difference of a complete version. The Rex-Royal S300 MCSTI leaves no room for compromise. At the touch of a button and with the appropriate cooling unit you can purchase the most varied coffee and milk beverages, but also produce a fine froth using the steam lance – just like a barista. Thanks to the integrated instant hoppers, hot chocolate and other instant beverages can be enjoyed immediately, plus hot water is dispensed at 35 litres per hour. All S300 models are compatible to the S500 machines.

Features

Fresh Milk

Coffee

Steam

Hot Water

Instant Products

Advantages

- Warm milk beverages double-dispensed at the touch of a button with the self-priming M-version and FineFoam froth setting.
- An integrated milk-pumping system for individual adjustment of the milk temperature; option for dispensing of cold milk foam also an under-the-counter solution.
- Two large instant powder hoppers expand your hot beverage menu to include delicious chocolate or, for example, a vanilloccino.
- Due to the convenient cleaning of the instant version and the large capacity of the two instant powder hoppers, the S300 with instant is also especially suited to the office.
- Powerful steam lance with optimised steam nozzle for the easy preparation of hot milk or the most delicate milk froth.
- The proven, further-developed, metal brewing unit holds up to 23 grams of coffee powder and fulfills the highest demands for coffee quality.
- Simultaneous preparation of coffee and hot-water beverages.
- High-resolution capacitive, 7“ colour TouchScreen for the programming of up to 24 beverages.
- Milk pump included.
- Standard Milk control sensor for R,Rd/UBR,UBRd
