

Rex-Royal S300 MCST

Rex-Royal S300 MCST

The Rex-Royal S300 MCST stands for the unadulterated enjoyment of coffee and fresh-milk beverages. Whether you'd like to froth the milk manually or prefer to prepare it at the touch of a button – the choice is yours. Non-stop and without loss of power in double and/or parallel dispensing. A coffee machine that will satisfy your capacity requirements. You can choose from a wide range of fridges as add-on units. All S300 models are compatible to the S500 machines.

Features

Fresh Milk

Coffee

Steam

Hot Water

Advantages

- Warm milk beverages double-dispensed at the touch of a button with the self-priming M-version and FineFoam froth setting.
- An integrated milk-pumping system for individual adjustment of the milk temperature; option for dispensing of cold milk foam also an under-the-counter solution.
- Powerful steam lance with optimised steam nozzle for the easy preparation of hot milk or the most delicate milk froth.
- The proven, further-developed, metal brewing unit holds up to 23 grams of coffee powder and fulfills the highest demands for coffee quality.
- Simultaneous preparation of coffee and hot-water beverages.
- High-resolution capacitive, 7" colour TouchScreen for the programming of up to 24 beverages.
- Easy operation and care thanks to visual user prompts and automated cleaning.
- Modular construction of the coffee machine for short intervention and maintenance downtimes.
- Milk pump included
- Milk control sensor for R,Rd/UBR,UBRd (standard)
