

# Rex-Royal S300 MCTI

## Rex-Royal S300 MCTI

In addition to fresh milk and coffee processing, with the Rex-Royal S300 MCTI you can prepare beverages such as chocolate and e.g. vanilloccino at the touch of a button, thanks to an integrated instant module. The S300 MCTI stands for the unadulterated enjoyment of coffee, instant, and fresh-milk beverages. You can choose from a wide range of fridges as add-on units. All S300 models are compatible to the S500 machines.

### Features

Fresh Milk

Coffee

Hot Water

Instant Products

### Advantages

- Warm milk beverages double-dispensed at the touch of a button with the self-priming M-version and FineFoam froth setting.
- An integrated milk-pumping system for individual adjustment of the milk temperature; option for dispensing of cold milk foam also an under-the-counter solution.
- Two large instant powder hoppers expand your hot beverage menu to include delicious chocolate or, for example, a vanilloccino.
- Due to the convenient cleaning of the instant version and the large capacity of the two instant powder hoppers, the S300 with instant is also especially suited to the office.
- The proven, further-developed, metal brewing unit holds up to 23 grams of coffee powder and fulfills the highest demands for coffee quality.
- Simultaneous preparation of coffee and hot-water beverages.
- High-resolution capacitive, 7" colour TouchScreen for the programming of up to 24 beverages.
- Easy operation and care thanks to visual user prompts and automated cleaning.
- Modular construction of the coffee machine for short intervention and maintenance downtimes.
- Milk pump included
- Milk control sensor for R, Rd / UBR, UBRd
