

# Rex-Royal S300 MCT

## Rex-Royal S300 MCT

With the intelligent Rex-Royal milk system, on all „M“ version machines you can purchase your coffee and milk beverages simultaneously and from one beverage outlet. The Rex-Royal S300 MCT is therefore particularly well suited for self-service. The advanced Rex-Royal milk system guarantees delicate foam of the highest standard. The beverage outlet can be easily opened and cleaned. You can choose from a wide range of fridges as add-on units. All S300 models are compatible to the S500 machines.

### Features

Fresh Milk

Coffee

Hot Water

### Advantages

- Warm milk beverages double-dispensed at the touch of a button with the self-priming M-version and FineFoam froth setting.
- An integrated milk-pumping system for individual adjustment of the milk temperature; option for dispensing of cold milk foam also an under-the-counter solution.
- The proven, further-developed, metal brewing unit holds up to 23 grams of coffee powder and fulfills the highest demands for coffee quality.
- High-resolution capacitive, 7“ colour TouchScreen for the programming of up to 24 beverages.
- Easy operation and care thanks to visual user prompts and automated cleaning.
- Modular construction of the coffee machine for short intervention and maintenance downtimes.
- Milk pump included
- Standard Milk control sensor for R,Rd/UBR,UBRd
