

Rex-Royal S500 CSTI

Rex-Royal S500 CSTI

With the new S500 CSTI, the efficient CST model range expands with two integrated instant containers („I“), allowing you to successfully produce creamy and delicate chocolate creations or vanilla dreams at the push of a button. You can also combine various coffee drinks or foamy milk creations with instant products. Provision of hot water is also always guaranteed, even with high usage. Equipped as standard with two precise grinders, the S500 can also be optionally equipped with a third grinder. Thanks to the generous 10.1-inch touch screen, its operation becomes an experience. The intuitive menu navigation and the presentation of drinks on offer will enthrall you.

Features

Coffee

Steam

Hot Water

Instant Products

Advantages

- Two integrated instant containers for creamy, delicate chocolate or vanilla creations or even coffee and chocolate mixed drinks.
- The integrated hot water/steam system has an hourly output of up to 58 litres and as a result fulfils the highest time and capacity requirements.
- Efficient steam wand with optimized steam nozzle for the easy preparation of hot milk or the finest milk foam
- With the optional BaristaSteam or efficient PowerSteam, milk can be automatically steamed as if a wizard is working his magic.
- Separate, efficient boilers for the preparation of coffee, hot water/steam.
- Patented metal brewing unit with storage capacity of 23 grams of coffee powder.
- Equipped with two precise, quiet and powerful grinders as standard.
- Can be optionally equipped with a third grinder.
- Equipped with a crystal clear, 10.1-inch, video-compatible display as Standard.
- Intuitive and easy operation.
- Various operating concepts (service and self-service).
- Machine can play advertising messages and videos on the touchscreen. Easy upload via USB connection.
