

Rex-Royal S500 CTI

Rex-Royal S500 CTI

Thanks to the two integrated instant containers, you are able to prepare creamy and delicate chocolate creations or even mixed coffee and chocolate drinks alongside coffee drinks with the S500 CTI. The hot water capacity of up to 58 litres per hour is also guaranteed with the S500 CTI. Equipped with two precise grinders as standard, all S500 models can be optionally equipped with a third grinder. In addition to the appealing design, efficient and high-quality components ensure the perfect preparation of your drinks, whether customers are serving themselves or being served by a member of staff.

Features

Coffee

Hot Water

Instant Products

Advantages

- Two integrated instant containers for creamy, delicate chocolate or vanilla creations or even coffee and chocolate mixed drinks.
- The integrated hot water system has an hourly output of up to 58 litres and as a result fulfils the highest time and capacity requirements.
- Separate, efficient boilers for the preparation of coffee and hot water.
- Patented metal brewing unit with storage capacity of 23 grams of coffee powder.
- Equipped with two precise, quiet and powerful grinders as standard.
- Can be optionally equipped with a third grinder.
- Equipped with a crystal clear, 10.1-inch, video-compatible display as Standard.
- Intuitive and easy operation, whether for cup pre-selection or in self-service layout.
- Machine can play advertising messages and videos on the touchscreen. Easy upload via USB connection.
