

# Rex-Royal S500 MCSTI-CF

## Rex-Royal S500 MCSTI-CF

With this model, you have an all-in-one solution. With the S500 MCSTI-CF from Rex-Royal you can automatically get perfect milk foam in the desired consistency, whether it is cold or warm milk foam. The 10-litre cooling unit can be installed next to or under the counter depending on space availability. Additionally, you can steam fresh milk yourself like a barista and control the steam output with the control knob. As with all „M“ models, all coffee and mixed drinks are available as double products with the CF-model range. With the „I“ model you can produce creamy, delicate instant products, such as chocolate or vanilla dreams, at the push of a button. The various coffee drinks or steamed milk creations are compatible with instant products. The S500 MCSTI-CF fulfils every individual wish of the catering industry, whether customers are serving themselves or being served by a member of staff.

### Features

Fresh Milk

Coffee

Steam

Hot Water

Instant Products

Compact Foam

### Advantages

- With the Rex-Royal CompactFoam System you will be able to realise very compact and creamy warm or cold milkfoam.
- Except of instant, all products can be brewed like two at once.
- Two integrated instant containers for creamy, delicate chocolate or vanilla creations or even coffee and chocolate mixed drinks.
- The integrated hot water and steam system has an hourly output of up to 58 litres and as a result fulfils the highest time and capacity requirements.
- Efficient steam wand with optimized steam nozzle for the easy preparation of hot milk or the finest milk foam
- With the optional BaristaSteam or efficient PowerSteam, milk can be automatically steamed as if a wizard is working his magic.
- Separate, efficient boilers for the preparation of coffee, hot water and steam.
- Patented metal brewing unit with storage capacity of 23 grams of coffee powder.
- Equipped with two precise, quiet and powerful grinders as standard.
- Can be optionally equipped with a third grinder.
- Equipped with a crystal clear, 10.1-inch, video-compatible display as standard.
- Intuitive & easy operation, for cup preselection layout.
- Various operating concepts (service and self-service).
- Machine can play advertising messages and be updated via USB Connection.
