

SCS Compact

SCS Compact CTI

The SCS CTI offers, beside hot water and other delicious coffee products, a huge range of instant beverages – such as hot chocolate, milk, or vanilla creations – which can be prepared in a short time at all. The containers can be easily removed for refill and cleaning. The SCS Compact CTI meets the highest hygiene standards and is the perfect fully automatic coffee machine for offices, smaller businesses, and takeaways. If required Two cups of coffee can be prepared at the same time.

Features

Coffee

Hot Water

Instant Products

Advantages

- Equipped with two instant containers, each of 1kg capacity, as standard.
- Capacitive touchscreen control panel up to 10 beverages. The functions are self-explanatory and harmonious. Stored programming settings can be easily transferred to other machines.
- Simultaneous preparation of two beverages.
- The proven, refined, Rex-Royal metal brewing unit containing up to 15.5 grams of coffee powder, guarantees, also for double products, an optimal extraction of the coffee grounds and ensures an outstanding coffee quality.
- The reliable stainless steel rotary-disk-pump with extreme efficient brushless motor guarantees a constant brewing pressure and consequently perfect coffee.
- Up to 175 mm outlet height.
- Modular construction of the coffee machine for short intervention and maintenance times.
- Swiss quality – Swiss Made
